Objective:

Eager to secure an internship or entry-level position as a React.js Developer to leverage my foundational knowledge in HTML, CSS, JavaScript, C, and C++, along with my ongoing pursuit of a BCA degree. Committed to learning and growing within the field of web development, with a focus on mastering React.js and contributing to innovative projects.

EDUCATION

Bachelor of Computer Applications (BCA)

Bhupal Noble's University, Udaipur

- Completed 1st year with a 64% mark
- Currently enrolled in the 2nd year (exams completed)
- Planning to pursue the 3rd year privately

SKILLS:

- Proficient in HTML, CSS, and JavaScript, with hands-on experience in developing web applications and websites.
- Knowledgeable in C and C++ programming languages, with a solid understanding of data structures and algorithms.
- Familiarity with version control systems like Git for collaborative coding projects.
- Strong problem-solving skills and ability to troubleshoot technical issues efficiently.

Projects:

1. CRUD Operations Employee Management System

- Created a web-based employee management system entirely using frontend technologies, including HTML, CSS, and JavaScript. This system facilitates CRUD (Create, Read, Update, Delete) operations for managing employee records without relying on traditional backend technologies. Instead, it utilizes the browser's localStorage feature for data storage, ensuring seamless data handling and manipulation directly within the client-side environment.

Technologies Used:

- Frontend: HTML, CSS, JavaScript
- Data Storage: Browser's localStorage

2. Other Project

Created Single Page Profile UI
